### **BAA/TAA Quick Reference Guide**

Current proudly offers luminaire and control solutions that comply with the Buy American Act of 1933 (BAA) requirements.

You'll find Current offers luminaire and control solutions that qualify as "domestic construction material" per FAR §52.225-9 Buy American-Construction Materials. Those products are "commercially available offthe-shelf (COTS) items" as that term is defined at FAR §2.101.

In addition, you'll find products that gualify as "designated country construction material" per FAR §52.225-11 Buy American-Construction Materials under Trade Agreements. These products are last substantially transformed in a designated country but may also incorporate U.S. content and/or processing.

If you need help identifying BAA or TAA-compliant products for a specific project, please contact your Current sales representative. Disclaimer: The foregoing information is provided for informational purposes only and is subject to changing laws and regulations as well as the specific procuring agency's policies and regulations. Nothing herein should be construed as a representation or certification by Current regarding the BAA- or TAA-compliance of any product. If you need guidance on the applicability of any law or contract provision as it relates to your project, you should seek the advice of a qualified lawyer. If a certificate or statement of BAA or TAA compliance is required from Current for your project, please contact your Current sales representative for assistance.
